CHAPTER ONE: GETTING GOING

Getting Going:
Your Money Goals

“You have to have dedication if you want to reach your dreams.”

Walter, Graduate Student/Social Entrepreneur

WALTER’S STORY: SETTING GOALS & SUCCEEDING

Walter grew up in a low-income neighborhood just north of Chicago. He was raised by his mother and grandmother. He never had a father in his life.

But … Walter did have goals! Walter knew he wanted to earn a decent, honest living someday. He knew he wanted to be able to make it on his own.

Did Walter succeed? YES!

Walter went to work. He has held a job since he was 13. He finished high school & community college, and then he graduated from a four-year college.

Walter is now the Executive Director of a youth organization in the Chicago area and is also a graduate student. He lives free of credit card debt and has his own bank account.

How did Walter learn about money?

I grew up in a suburb called Evanston in the 5th ward [or neighborhood] which is mostly the poor ward in the Evanston area. When I was growing up, I was the younger of one brother. My grandma and my mother raised me. I have never had a father at all.”
CHAPTER ONE: GETTING GOING

DID YOU KNOW?

PEOPLE WHO PLAN SAVE TWICE AS MUCH AS THOSE WHO DO NOT!

(PRINCETON SURVEY RESEARCH ASSOCIATES, 1997)

WALTER’S STORY: PUTTING PLANNING INTO ACTION

“...I used to sell candy. I’d get a box of candy ... it was like 24 candy bars in one box and they only cost $6. If we sold candy bars for $2 a piece, then we made $48 off that $6.

That is just one example of us keeping things positive and not going to the street ways of stealing, drugs and gambling or doing things like that.

| $6  for 1 box of 24 candy bars | → | $2 per candy bar \times 24 candy bars | → | $48 |

$48 sales - $6 costs = $42 in profits

You have to find ways, when your parents are working two jobs, to buy your own things - you know positive ways not illegal ways, positive ways.

I remember when I was in 7th grade. I wanted to get a brand new Trailblazer coat... it cost like $200.

I found 3 little side jobs. I used to do score keeping - keeping track of the score of different basketball games - you get $35 a night for that - plus I would go out and rake leaves and shovel snow as well. So, you know all that adds up, and within a month, I got the jacket. So, it was a nice goal I set, and I kept setting goals for myself as I got older.”
“Champions aren’t made in the gyms. Champions are made from something they have deep inside them – a desire, a dream, a vision.”

Three Time Heavyweight World Champion

Min, College Student
WALTER’S STORY: STEPS TO SUCCESS

“Within a long-term goal, you must have short-term goals. It’s like they go hand in hand. Every semester, I used to get a journal, and I would get a little thing of goals. I would put it on my wall… so like whether it be… I want to lose 20 lbs or I want to make sure that I maintain an ‘A’ average… These little, short-term goals helped me get to my long-term goals.”

START TODAY: SHORT-TERM GOALS

What can YOU do to reach your financial goals today, tomorrow or the next day?

1. Think of the steps that it will take to reach your “VISION” or “LONG-TERM” goals from page 3.

2. Write down 3 things that YOU can do THIS MONTH (short-term goals) to reach your long-term goal.

This month I will …

(List 3 short-term goals for this month.)

START TODAY: SHORT-TERM GOALS

1. Make a “Goal Card” to remind you of your most important short and long-term goals.
2. Keep it where you can see it.
3. Check off your short-term goal when it’s complete. Celebrate!
LONG-TERM GOALS: EDUCATION MATTERS

On average, or most of the time, people who have a high school degree earn about $200,000 more than people without a degree over their lifetime! On average, people with a college degree earn over $1,000,000 more than people without one!*

A high school, two-year or even a four-year degree can be a path to success for people from ALL communities! In a recent survey, 25% to 46% of college students were from families with low to middle incomes.¹ Dream big!
